ONE SUFFOCATED; FIREMAN HERO

ARMY DRAFT IS COMPLETE

SELECTING  
FIT IS NEXT  
STEP FOR  
NEW ARMY

Within Five or Ten Days the  
Lists Will Be Received and  
Exemption Boards to Meet

MISSING NUMBER  
IS FINALLY LOCATED

Rearrangement Owing to the  
Single Error in Drawing to  
Make But Little Difference

**BULLETIN.**  
BY ASSOCIATED PRESS  
LEASSED WIRE TO TRIBUNE  
WASHINGTON, July 21.—Number 4664 is the number which should have been in the empty capsule that came out of the bowl early this morning in the army draft lottery. It was discovered several hours later by checking official tally sheets.  
A blank for the empty capsule was left at the foot of the list, and Provost Marshal-General Crowder and officials in charge of the detail of the scheme said, however, that it probably will be placed finally in the order in which it was drawn, its rotation number being 10,004. This would show each number as now listed from 10,004 to 10,499 down one place further on the list.  
Probably there are several hundreds of men whose cards bear the number 4664, since the average district has 3000 registrants. Even at 10,004 they will be so far down on the liability lists that it will make little difference to them whether they are 10,004 or 10,500.  
WASHINGTON, July 21.—With ten million men listed in the order of their liability to service, the Federal government began today its last task of preparation for organization of a selective draft army—the task of determining who among those chosen shall be exempt.  
The drawing to determine who shall first be liable for service ended early today, after it had been in progress without interruption for more than sixteen hours and while the officials in charge rested from their long vigil others took up the tabulation of official figures for forwarding to local exemption boards over the country.  
Most of this work, it is hoped, will be complete before the day is over, so that the local authorities can be given their instruction early next week.  
**WITHIN TEN DAYS.**  
Within ten days the men who are subject to the President's order for mobilization of a war quota of 637,000 may be appearing before their boards for examination and for decision as to exemption.  
Twice the number of 637,000 are to be summoned by the boards on the theory that two registrants must be examined for every soldier accepted, and the number each registration district must furnish has been carefully worked out.  
The provost marshal general's office was greatly pleased today over the outcome of the drawing, officials declaring it an accomplishment scarcely less noteworthy than the successful registration carried out six weeks ago.  
**ONE MEN OUT ERROR.**  
Ten million men, they pointed out, had been assigned places on the nation's muster roll within the space of less than a day, and apparently with only one minor error in the whole complicated process.  
The single error came to light near the end of the drawing this morning, when a blank was found where there should have been a number in one of the 10,500 capsules by which the war time fortunes of America's youths were to be chosen, but this will not materially interfere with the working out of the lottery, however, and all officials agreed that it could work no injustice to any registrant. It means only a temporary rechecking, they

Suffragists Quit  
White House When  
Objectors Arrive

WASHINGTON, July 21.—Rather than be identified in their picketing with the eleven "conscientious objectors" to the draft, who came here from New York, twelve suffrage pickets withdrew from in front of the White House on receipt of word that the military service objectors would establish themselves as pickets outside the executive mansion at half-past two o'clock this afternoon.  
The information was given to the suffragists by Mrs. Sarah V. Farlin, spokeswoman of the Washington force, and the decision not to be in any way identified with the "conscientious objectors" was reached in a very few minutes. The suffrage pickets had resumed their silent sentinel duty outside the White House early this afternoon.

DRAFT QUOTA  
IN OAKLAND  
IS 1977 MEN

Oakland's quota to be furnished the United States army in the first draft is 1977. That of Berkeley is 503. Alameda county, outside of the city districts, is to furnish 641 men. The figures for the different counties of the State and cities of more than 30,000 inhabitants are as follows:

MICHAELIS  
SHAMMING,  
SAYS GEORGE

Victory for Germany Would  
Mean Once More Would the  
World Be Plunged Into Blood

British Official in Address Says  
Food Supply Is Guaranteed;  
Diver Menace Is Nearing End

LONDON, July 21.—"Sham independence for Belgium: sham democracy for Germany: sham peace for Europe," was the bitter epitome of German Chancellor Michaelis' speech to the Reichstag, spoken by Britain's premier, David Lloyd George, this afternoon.  
"The chancellor's statement contained phrases which the German military autocracy understood," he added.  
"Those in charge of German affairs have elected for war. The junkers have thrown the old chancellor into the waste basket with his scrap of paper—and it will not be long before junkerdom follows."  
**DIVERS TO GO.**  
"I am sorry to disagree with the German chancellor regarding German submarines," he continued, "but gradually, though surely, we are increasing our protection and diminishing our losses."  
"This year we are building four times as many ships as the preceding year. Next year we shall build six times as many."  
"The food supply this year and next is already secured. Our program of cultivation makes the supply of 1919 secure, even if our losses are increased."  
"There is no hope for Belgium in the chancellor's statement. Those in charge of German affairs have elected for war," declared Lloyd George.  
"The chancellor's statement," he added, "contained phrases which the German military autocracy understood."  
Junkers have thrown the old chancellor into the waste basket with his 'scrap of paper,' Lloyd George continued, "and it will not be long before junkerdom follows him there."  
"The German chancellor held out no hope for Belgium," he continued. "She was not a nation by him."  
**FOR FREE BELGIUM.**  
"It is the determination of the allies that Belgium must be restored free and independent and her people be placed under a protectorate."  
The premier declared that the U-boat is not eliminated Europe will again be plunged into a war of blood some time after the present war is concluded. Lloyd George said that the speech of the new German chancellor meant that if Germany were victorious there would be annexation all around and that the military autocracy would be established more firmly than ever.

U. S. Issues First  
Official Warning  
Of Germ Plotters

WASHINGTON, July 21.—Official cognizance of the sales of poisoned court plaster in the middle west by agents of Germany was taken this afternoon when Assistant Attorney-General William Phipps, acting for the attorney-general, issued the following:  
"While the Department of Justice does not take a sensational view of the reports indicating a possible enemy activity in the dissemination of poisoned sticking or court plaster, there has been enough reported on the subject to warrant thorough investigation, both as to the manner of distribution and the germs in the plaster."  
"Consequently, the samples on hand are being examined both in Washington and in a western city. Pending further information, it will be well for the consuming public to use no remedies of this kind, except those obtained from approved sources of supply."

HUNDREDS  
KILLED IN  
RUSS RIOTS

By William G. Shepherd,  
(United Press Staff Correspondent.)  
PETROGRAD, July 20 (Delay).—via London, July 21.—One hundred killed, seven hundred wounded of civilian and soldier and sailor rioters, and six Cossacks killed, seventy wounded, is the casualty list of Russia's second revolution, apparently ended today after five days of rioting with the government in control.  
Out of the violence and bloodshed has come a reorganization of free Russia. The government is now in the hands of the central committee of the workmen's and soldiers' congress with the provisional (Duma) representatives, acting as an administrative body responsible to this executive committee.  
Exposure of Nicholas Lenine, pacifist agitator, as a paid German agent, helped end the rebellion. Lenine had artfully paraded a pseudo-patriotism and acquired quite a following. The government did not desire to arrest him knowing he would pose a martyr, but went diligently to work looking up Lenine's past record as an exile in Switzerland and Germany.  
**KERENSKY MADE PREMIER.**  
LONDON, July 21.—Minister of War and Marine Kerensky has temporarily been named premier of Russia, succeeding Prince Lvoff, resigned, according to announcement in the Bourse Gazette at Petrograd today. Kerensky, it was stated in the Petrograd advices, is to retain his place as military and naval chief. Tsereteli, formerly minister of communications, was named minister of the interior, in addition to his previous cabinet post. Minister of Railways Nekrasoff is temporarily filling the post of minister of justice.  
The new government in Petrograd is arresting on the charge of treason all of the organizations which took part in the armed rebellion and all instigators of the revolution.

IDAHO TOWN  
WIPE OUT  
BY BIG FIRE

Business District Is Entirely  
Destroyed; Ten Forest Fires  
Reported; Origin Mysterious

Healdsburg and Guerneville in  
Path of Big Sonoma Blaze;  
Fifteen Miles Already Burned

HARRISON, Idaho, July 21.—Fire of unknown origin began here today and at 10:30 o'clock had destroyed all of the business section and half of the residence portion of the city. The loss so far is estimated at half a million dollars. The fire began in Grant's lumber yard. Earlier in the day a fire was discovered in Grant's logging camp.  
Ten forest fires are reported burning in Northern Idaho, all of them, it is said, of mysterious origin.

**NEARS HEALDSBURG.**  
SEBASTOPOL, July 21.—Fanned by high winds a forest fire near Healdsburg, Sonoma county, was racing in two directions today. One fork was threatening Guerneville and the other Healdsburg, despite efforts of hundreds of fire fighters. Healdsburg was believed in little danger as the Russian river is between the town and the fire.  
Heavily wooded sections in Mill, Fairner and Porter Creeks were burning fiercely. Intense heat and high winds prevented back firing to any extent.  
Bits of ash and cinders were falling in Healdsburg and adjacent towns and a pall of dense smoke hung over Sonoma county. Approximately fifteen miles have already been burned over.  
Scores of ranchers have moved furniture from houses in the paths of the fire. No loss of life had been reported.

**DAMAGE HEAVY.**  
SANTA ROSA, July 21.—Sweeping over six miles of forest with its eastern edge five miles from Healdsburg and the western extremity licking at the outskirts of Guerneville, a forest fire which is baffling all efforts to extinguish, is doing thousands of dollars' worth of damage in Sonoma county today.  
Deputy Sheriff James Petray arrived in Santa Rosa from the scene of the fire early this morning, returning immediately with more fire fighters. One hundred fifty men under Forest Supervisor George Spaulding are engaged in the battle. Petray declared that unless the flames were checked at noon, the Healdsburg home guards would be called out.

**CHICO, July 21.**—A forest fire believed to have been started by two discharged workmen, who boasted of their affiliation with the I. W. W., threatened to destroy the lumber mills and the town of Stirling City, yesterday.  
The fire started about two miles north of town, and fanned by a strong north wind, spread toward the mills with alarming rapidity. The mills were closed and every available man sent out to fight the flames. Other towns sent aid.  
Late last night it was said the flames were under control and it was believed the danger was averted unless the wind freshened.

**SAN MATEO, July 21.**—The Peninsula Rapid Transit Company's plant here was destroyed by fire early today, with a loss of \$150,000. Thirteen auto buses valued at \$5,000 each, \$100,000 worth of tires and a great deal of paraphernalia, in addition to the building itself, were destroyed.

**EUREKA, July 21.**—Five company houses of the Ralph Shipbuilding Company's plant were destroyed by fire early today. For a time the entire plant, including ships on the ways, was threatened. The origin of the fire is unknown.

DEADLY FUMES IN  
CONTAINER CAUSE  
OF TRAGIC DEATH

Five Are Taken to Hospital in Serious  
Condition; One May Lose Mind; Efforts  
to Save First Overcome Are Costly  
HOSEMAN RESCUES LABORERS

Deeds of heroism and a glorious spirit of self-sacrifice failed to save the life of F. M. Gonsalves, a laborer employed by the Barbour Chemical Works, 766 Fiftieth avenue, this morning when six men one after the other entered a deep tank containing foul barium carbonate gas, in a vain effort to bring overcome companions from the depths. Gonsalves, attempting to save the life of a friend, was found dead beneath a heap of his fellow-workers who had endeavored to save him.  
August Mendoza and Manuel Viera, both of 905 Fifty-second avenue; Wilbur Smith, 3542 Porter street; James W. Bradshaw Sr. and James W. Bradshaw Jr., 733 Fiftieth avenue, are at the Emergency Hospital in a precarious condition.

City Ready  
To Welcome  
Ad Delegates

With all in readiness for the reception of the special trains and boatloads of delegates to the annual convention of the Pacific Advertising Men's Association, which takes place tomorrow afternoon with the arrival of the steamer Great Northern from Spokane, final touches are being put on the four-day program, today, which is to outline the entertainment Oakland has prepared for its enthusiastic guests.  
The arrival of the advertising men of the coast is to be something of an event. The genius of these men belongs the making or breaking of the leading commercial industries of the coast. In street cars, bill boards, newspapers and by photograph and movie film, they have stamped the influence of their organization on modern life. The city, through its representative organizations, plans a great welcome.  
From early dawn until late at night delegations will pour in from all over the state, prepared to take an enthusiastic part in the four-day convention. They will be met by various committees, who will welcome them and act as an escort of honor to the convention headquarters in the Hotel Oakland. Proceedings will start with the official welcome of the incoming delegates and a parade through the downtown portion of the city.  
At 5 o'clock in the evening, delegates and their wives and families will be officially welcomed to the city by a big patriotic mass meeting at the Oakland Auditorium to which the general public is invited. There will be speeches, patriotic music, addresses of welcome and other features of interest.

Goethals Is  
Ready to Quit  
In Ship Row

BY UNITED PRESS  
LEASSED WIRE TO TRIBUNE  
WASHINGTON, July 21.—General Goethals has offered to resign as general manager of the emergency fleet corporation.  
The climax to the long drawn argument between himself and Chairman Denman of the shipping board, Goethals wrote a letter to President Wilson, suggesting if it will help matters he will resign.  
That the President will take quick action in the case was indicated today. Those close to the President, intimating that he was "out of patience" with the Goethals-Denman row. "What the President will do, however, will not be known until Monday. He is on a week-end cruise today."  
Goethals' letter, sent yesterday, detailed his relations with Denman and declared the constant bickering was no longer usable.  
Up to the present the President has held aloof from the shipping row, telling both men to go ahead with their plans to build ships. He expects a climax to reach a decision on a definite program, his chief concern being in prompt action.

City Ready  
To Welcome  
Ad Delegates

Several of the men may die, and in the case of one at least it is thought that his mentality may be permanently affected. At a late hour this afternoon J. W. Bradshaw Jr., who made a vain attempt to rescue his father, was the only man conscious.  
**HOSEMAN PROVES HERO.**  
Twenty-third avenue, all of the men who were saved owe their lives. Just as a Daelser helmet, he lowered a ladder into the deep and fume-filled cavern and brought the men out.  
Upon his entrance into the tank he first adjusted painter's hooks to loops, quickly fastened under the arm-pits of the men, keeping their faces from the poisonous fumes on the bottom. In turn he fastened pulley ropes to the men so that companions above might pull them out. Gonsalves was on the bottom and, according to Superintendent S. J. Norris, may have been drowned, as his face was in water along the tank's bottom.  
When all of the men were hauled from the tank Alvers started climbing. The tank, but exhaustion made him falter and he would have fallen to possible death had not companions managed to catch him just in time to save him. He was in the tank twenty minutes. The helmet holds but a half-hour's supply of oxygen.  
Accounts differ as to the order of the men's entrance into the tank. From scattering accounts it is thought that Viera had been sent into the tank first. Gonsalves, his helper, it is thought, was on top of the tank.  
Gonsalves saw Viera fall when the dead man began to climb. He immediately lowered himself into the tank to save the life of his fellow-worker and friend. It was while Gonsalves was endeavoring to hold Viera above the rising blanket of gas in the tank's bottom that he himself succumbed. Viera's body was found directly over that of Gonsalves.

TRUCK PROVES VALUABLE

Gonsalves lived at 905 Fifty-fifth avenue and is survived by a wife and two children. One is an infant, 19 months' old, while the other is 2 1/2 years.  
The tank was used as a container and transfer holder for barium carbonate gas. It is routine work for the men to clean the tanks, but it was evidently thought that the cistern was empty at the time of accident. Artificial respiration was used at the works.  
The new life-saving truck, just placed in commission by the Oakland fire department and stationed at East Fourteenth street, near Thirteenth avenue, was used for the first time today. It carried the helmets and respiration apparatus.  
Chief Whitehead of the fire department is drafting a letter addressed to the city council, asking that official commendation be given Alvers for his bravery.  
**MEN MAY DIE.**  
Bradshaw Sr., Viera and Mendoza are in a serious condition according to a statement made late this afternoon by Dr. O. D. Hamlin, chief county emergency surgeon, who arrived at the emergency hospital fifteen minutes before the injured men were taken there. Ten minutes after his arrival at the hospital, Dr. Hamlin was joined by the other members of his staff, Dr. N. N. Ashley, resident physician and surgeon, Dr. George Kinkaid, Dr. A. C. Smith and Dr. William Irwin and everything was in readiness when the first ambulance arrived.  
"Until it is definitely known just what kind of gas was inhaled by these men," said Dr. Hamlin, "it will be impossible to forecast what complications may set in. Viera and Bradshaw Sr. are in a grave condition and it cannot be known for some time just what the mental condition of Mendoza will be when he has sufficiently recovered to be conscious. The gas may have a permanent effect on his mind. All of the injured men, if the gas they inhaled was of a corrosive character, may go into pneumonia after their experience."

FOOD BILL PASSED

WASHINGTON, July 21.—Virtually re-written as it came from the House a month ago, the administration food control bill, modified but still giving the President broad authority to regulate foods, feeds and fuels, providing for a board of three food commissioners instead of a single individual and authorizing a minimum guaranteed price of \$2 a bushel for wheat was passed by the Senate this afternoon.

# JAPANESE KILLS FRIEND FOR DEBT

LOS ANGELES, July 21.—M. Aojama, a young Japanese business man of Oakland, shot and fatally wounded Dr. Y. I. Kimura here today and then turned the revolver against his own head with fatal result. They were playmates in Japan twenty years ago. The quarrel was about a small loan prior to the shooting.

**MAURER TO SPEAK.**  
James A. Maurer, president of the Pennsylvania State Federation of Labor, a member of the Pennsylvania state legislature on the Socialist ticket and organizer of a peace movement in the East, will speak on "Is Conscription Constitutional?" in Blake Hall, 529 Twelfth street Wednesday evening July 25. He was the principal speaker at a recent peace meeting in Boston which was broken up by a riot.

An enjoyable program for the day is announced by the committee in charge: Mrs. S. Angel, chairman; Mrs. Z. Papkekas, Mrs. P. Mega, assisted by the president of the union, Mrs. S. Pongos.

## ALAMEDA SITE FOR NAVAL BASE.

The telegram which the mayor of Alameda received some days ago from United States Engineer Rousseau, requesting data in detail concerning the tidelands under consideration for a naval base, justified the belief that the Alameda site was receiving favorable consideration; and the subsequent telegram from Rear Admiral Helm of the naval commission, asking how soon a referendum election could be held by Alameda city, confirmed this belief. Title to the site can only be conferred by a referendum vote. The probabilities are increasing that the greater naval base will be located on the east bay shore.

Directly in line with these inquiries, and preceding them, was the extensive examination of the site and test of the strata formation. These were of a nature and thoroughness to warrant the assumption that the government agents were satisfying themselves as to the suitability of the site from a geologic standpoint. These later inquiries and requests must be accepted as evidence that other considerations had been met and that the decision has been made.

A naval base on this immediate side of the bay means great things for these communities. A vast stretch of marsh and shoal country will be highly utilized, an army of mechanics will be employed, all of whom will require homes and in their turn be the means of attracting other industries and activities. The movement of material will be an immense industry in itself. The region on this side, contributory to the Alameda site, admits of great expansion in the way of improvements. The far-reaching and beneficial results can hardly be outlined.

Opposition to the selection of this site dies hard. There is a concentrated effort to prevent the acceptance of a magnificent site here as a gift, instead of buying a site on the other side at an outlay of millions, and involving the further outlay of other millions in grading and preparation, not to mention the legal complications that would result from the thousand and more titles that would have to be merged.

An indication of this effort in behalf of the other side is afforded in recent news statements. One of these is to the effect that "Alameda has not given up hope," and another states that "Alameda has not yet lost the naval base." The latter is strictly true, but it does not convey an idea of the real status of the matter.

## AUTOMOTIVE INDUSTRIES IN THE WAR.

For the purpose of making available to the government all possible information regarding the manufacturing facilities and the possibilities for expansion of the automotive industries, a comprehensive inventory is being made by the Council of National Defense. Included in the inventory will be automobile, airplane and water-craft factories. The approaching demand for airplane engines, motor trucks, tractors and motor boats is recognized.

The inventory will give the government authorities exact information as to just what can be expected from each plant, and will also give a thorough insight into the requirements of the industries in the way of additional labor and machinery, making it possible to plan accurately and intelligently for expansion.

Hearings on the \$639,000,000 aviation bill before the House committee on military affairs has been completed and the bill is now before the House for action. Slight opposition has developed to the measure and it is believed that it will pass with but little discussion. The personnel provided for in the initial legislation is 100,000 men.

It is becoming more generally recognized that airplanes are to play a most important part in the war and this country is preparing to render effective aid in this direction. The Wright brothers and other American inventors were the pioneers in successful air navigation, and it is peculiarly fitting that the United States should at this time assume the leadership in developing and perfecting this service for most effective use against the enemy.

Men whose numbers are drawn in the draft lottery, until they receive official notification of such drawing, may choose the branch of service which they prefer to enter. This fact should be borne in mind by Oakland men whose numbers are

drawn, in connection with the opportunity to join Battery E. This battery is short some 125 men. It is composed of residents of this city, and the desirability of companionship in military service with acquaintances, or at least those from the home town, is obvious.

## EXPENDITURE OF RED CROSS FUNDS.

The chairman of the Red Cross war council, Mr. Henry P. Davidson, has made official announcement of the plans of the American Red Cross with particular reference to the expenditure of the \$100,000,000 fund recently raised by popular subscriptions throughout the country.

Mr. Davidson makes it clear that it is the policy of the war council to withhold any very large expenditures abroad until it is made certain that every necessary provision has been made to care for our own soldiers and sailors. This declaration will meet with general approval.

The American Red Cross organization, however, has not been unmindful of the dire necessities of those engaged on the other side of the Atlantic in the common struggle for the maintenance of world democracy. For immediate necessities in France, \$1,000,000 has been appropriated. This will be expended under the direction of the American Red Cross commission in France. The Red Cross has also appropriated \$200,000 to purchase medical supplies and instruments to enable the Red Cross commission to Russia to take care of urgent needs on arrival in that country.

The sum of \$200,000 has been appropriated to purchase materials to supply most urgent needs in Rumania. The sum of \$100,000 has been appropriated for use in Armenia, and \$6500 to purchase drugs to be sent to the Russian Red Cross. These are the only appropriations made by the war council for work in foreign countries.

Speaking further of the policy of the council, Mr. Davidson says:

"The need in all our allied countries is beyond computation and use can be found for all funds which can possibly be obtained either now or in the future. That very fact imposes upon the Red Cross an extraordinary obligation, which it fully recognizes, to use the funds committed to it only after assuring itself not only that any proposed expenditure will do good, but that it will accomplish the greatest good relative to other needs which are crying to be supplied."

The Red Cross has now at work in France a commission of experts and it has more recently sent to Russia a similar commission. The expenses of these commissions are borne privately and are not a charge on Red Cross funds. It is the purpose of the Red Cross to send similar commissions to Italy and Rumania, and also to appoint a commissioner to Great Britain.

The American people can rest assured that every dollar appropriated for this splendid work will be judiciously expended. The names of those at the head of the American Red Cross are a guarantee of efficient administration. In addition, all accounts are carefully audited by the War Department. The statement of a policy as to disbursements in foreign countries was both timely and wise, removing any apprehension that may have existed concerning the care of our own soldiers and sailors.

The price of beans, which went up to a dizzy altitude in the winter and early spring months, has not yet fallen to its normal level. The reason is understood to be that beans will keep. The grower can store them and wait. Besides, beans are a staple for soldiers and all sorts of people away from their base. They have an obviously different market status from potatoes and onions, which must be dug when they are ripe and forthwith marketed. The varieties of beans commercially recognized in California are many. The casual person considers a bean a bean, and lets it go at that. But those who go into the subject take account of the Lima, black-eye, large white, small white, pink bayo, red Mexican, red kidney, tepiara, blue pod, French white and Henderson bush varieties. The bean grows to the greatest perfection in California, as nearly everything else does.

The master bakers of fourteen counties, in response to a call from the National Council of Defense, held a meeting Thursday in San Francisco. Those assembled were informed that as soon as Congress passes the food bill, standard formulas will be forthcoming. Bread is to be so made that it will improve with age; "fancy curlicues" will be cut out. There is likely to be some query here as to whether this means that an underhand advantage is to be taken of the doughnut. Other considerable departures from customs that have obtained are foreshadowed, and altogether there is a prospect that it is going to be quite different at the baker's—except in one particular: The changes proposed are nowhere represented to lower cost of the staff of life to the consumer.

It seems difficult to find a happy medium in getting food products from the producer to the consumer. Almost every staple that enters into human food is produced here in striking profusion; but the man who raises it generally gets a low price, while the man who buys it has to pay a large one. The ratio is generally out of reason. Regulatory and restraining laws, commissions and market directors fail to establish a just equilibrium. The charge of the cannery men against the associated strawberry growers is a case not exactly in point, but serving to illustrate the difficulties of the situation. The canner, at loggerheads with the producer, seeks protection; but the consumer is at the mercy of both. The consumer is the one deserving of protection.

## NOTES and COMMENT

Same old stuff. The new German chancellor begins by telling how this war was started by England, France and Russia.

A steam whaler has arrived at Seattle for repairs. The captain might have created a sensation by attributing the damage to a submarine, but he pragmatically confessed that it was just a sulphur-bottomed whale. He conspicuously lacks certain journalistic instincts.

The baseball reporter of the Santa Ana Blade, put on the news desk, performed in this manner: "The batting average of the crowned heads of Europe has not been improved by the coming of the Manchu dynasty in China."

A directly slanderous item from the Chico Enterprise: "A Chico man has invented a way to inflate auto tires painlessly and economically. Whenever the tires need inflation the inventor asks a real estate man to ride with him. A funnel-like receiver hangs in front of the real estate man, which connects with the tires. Over-inflation often results."

The list that contains the numbers that are drawn in the draft lottery will be a sort of intensive Whose-Who directory.

The San Francisco woman who turned in a fire alarm when her husband came home in an inebriated condition violated the ordinance but was not so far out of the way on general principles.

The Merrill, Wis., Herald discloses an abnormal family tree: "Nile Seal has enlisted in the United States Marine Corps. Nile came of old Revolutionary war stock, three of his great-grandfathers having been soldiers in the war of 1776."

As to naming the brand new generation the Santa Ana Blade says this: "Brown county, Nebraska, has the first town named after the newest American hero, Pershing. But the number of boy babies named Pershing in the next year will be legion."

Somebody has rubbed it in by inventing a ukulele-banjo.

New function of the draft lists, according to the Stockton Mail: "The Mail holds out the hope in its news columns that mothers of long-lost sons may be able to find them through the draft roll. But a son who had to be located that way probably wouldn't be much use to his mother when found. Still Nobody could make the mother believe that."

Essay from the San Diego Union on "going up": "Gloom for the followers of Lady Nootie. The price of smokes is going up, dealers complaining that the increase in the price of tobacco must be met by the consumer. About the only thing that I can bring to mind that is going down is an elevator—and that goes right up again."

As considerable authority as W. A. Clark, president of the Salt Lake Railroad, is of the opinion that the I. W. W. are under "malign German influence" in their multifarious acts of devilry. It is certain that the things that come to pass at their hands point to a concerted purpose to embarrass this government.

Goethals says he cannot quit the shipping board. That's the kind of patriot. He doesn't up and quit in a huff. But neither does he turn aside from his purpose to run the public enterprise he has been put in charge of, for which he will be held responsible, at least in the eyes of the people.

The latest foreshadowed German proposition is to claim that it has won out, but willing to quit if the world will disarm. The quitting does not seem to be good just now, and especially on such terms.

President Wilson, who was greatly shocked when he learned of the sixteen suffragist pickets being sentenced to sixty days imprisonment for investing the White House, has shown again that he is a gentleman. He has granted full and unconditional amnesty to them all.

## SPIRIT OF THE STATE PRESS

The world is being forced to a vegetable diet. The high cost of living on meat has had much to do with the return to man's primitive, natural food. Nobody wants to live by bread alone, but needs must when the devil drives. Vegetables are cheaper than meat, and anybody can raise them; the smallest plot of back or front yard, the space of vacant lot, is sufficient for the sustenance of a large family. Furthermore, the vegetables tell us that there are as many proteins, carbohydrates and calories in vegetables as in beef or mutton. And anyway, man is a gregarious animal. He was never built for a meat diet, his teeth are for grinding rather than rending, and his intestines are so long that meat putrefies in their convolutions, engendering diseases that are inhumanly human and absolutely peculiar to humanity.—San Diego Union.

The Visalia Delta comments on the excessive demands on the newspaper for free space during the war times, and cites an example of a Boston firm with a fruit drier trying to induce the press to broadcast the drier's merits out of sympathy with the national food conservation plan.

One of the possible consequences of the passage of the federal revenue bill, with its increase of postage rates, may be to lighten the load of the mail carrier who now comes from the distributing office appearing more like a pack animal than a human being. If the price of motor cars ever gets down to \$250 Uncle Sam may consider the economy of getting a few thousand for his army of distributors, but so long as public attention is absorbed in choosing men for the trenches the carriers will doubtless have to stagger on with what loads increased postage may compel them to pack to us.—Stockton Record.

## NEW "FARMER" CONGRESSMAN FROM NORTH DAKOTA

## LIBERTY

Liberty, Queen of the world!  
Let thy banners be unfurled;  
Near historic Waterloo  
There's a mighty work to do,  
Liberty, Queen of the world!

Liberty, light of the way!  
Let there be a golden day:  
May thy joys and hopes advance  
O'er the Belgian land and France,  
Liberty, light of the way!

Liberty, Goddess of Peace!  
Slavery must forever cease;  
O'er the lands of Russia far  
Freedom now must be the Czar,  
Liberty, Goddess of Peace!

Liberty, Star of the light!  
Break, O break this awful night;  
Sweep away this dark despair,  
Lift the war clouds everywhere,  
Liberty, Star of the light!

Liberty, doubt not thy sons!  
Soldiers they, bearers of guns,  
They will see Old Glory shine  
On the blood-drenched battle line,  
Liberty, doubt not thy sons!

Liberty, Hope speaks to thee!  
Speakers from depths of misery;  
Strike with hands of fire the blow,  
Lay the despot war god low,  
Liberty, Hope speaks to thee!

Liberty, sweet Liberty!  
Millions cry and pray for thee:  
Stay the hand of killing strife,  
Give our children Freedom's life,  
Liberty! Sweet Liberty!

SCHUYLER COLFAX SPERO.  
Oakland, July 17.

## TWELFTH-STREET TRAFFIC.

To the Editor of The Tribune:

I have often wondered if anyone ever noticed the over traffic on East Twelfth street. To me it seems almost dangerous, and with little expense to the city, it seems to me that Tenth and Eleventh streets could be cut through. The city already owns the ground both north and south of the Auditorium. Eighth street is too far south and in a very bad condition east of Oak street.

We pay thousands of dollars for parks, etc., which I as a property owner do not object to, but it seems to me the city could spare enough money to relieve the over traffic on East Twelfth street. Couldn't you bring it to their minds by referring to it in your paper?

A SUBSCRIBER.

## WISDOM OF CENSORSHIP.

The British newspaper fraternity loses no opportunity to hammer at the restrictions and excesses of the censorship. The latest skit runs somewhat as follows: "Cannon to the left of them, cannon to the right of them, behind them, volleys and thundered." So quoted the enthusiastic war correspondent. But the censor cut out this passage. "Can't be giving away the positions of our artillery," commented he, sagely.—The Argonaut.

## TODAY, 20 YEARS AGO—

Charles Gardner, clerk of the chief of police, prepared a book which gave the record of every police officer who had ever been on the Oakland police force. The record was regarded as of much service when it was desired to retire any of the officers under the pension act.

Business along the waterfront rapidly increased. To meet the requirements of the increased number of waterfront workers a restaurant was established on Adams wharf.

Surgeon-Major J. P. H. Dunn of this city was in command of the Hospital Corps of the Fifth Regiment, National Guard, which went into camp at Camp Shafter, Santa Cruz.

Mrs. J. Rosenstern and the Masses Rosenstern of Berkeley went on an outing to Lake Tahoe.

Rev. Mr. Downie and wife of Winters were the guests of Captain and Mrs. J. Y. Millar of Fruitvale.

## WATER FRONTLINES CHANGES.

A chicken fancier of this place has thought of a new use for the water of the thermal springs. The water of the bath springs is just about blood heat and just the right temperature for incubation. It will be made to supplant the old hen and feed a super-incubator. Large shallow tanks will be supplied with the warm water, and above these will be located the containers for the eggs. A brooder will be similarly operated.—Denver Post.

# DRAFT NUMBERS IN ORDER DRAWN

## Half of Drawing Sent By Wire; Remainder of Numbers to Be Mailed

Although all the 10,500 numbers in the great military draft were drawn at Washington, only about half of these have been sent over the telegraph wires and no more will be sent in this manner.

The complete official list will be sent by mail. Until that arrives the last half of the drawing will be unknown. As it is, however, the first half of these numbers more than cover the first two or three calls that will be made. It will probably be some time before the men whose numbers were selected during the last half of the drawing will be called.

## HERE IS WHAT YOU MUST DO

- 1.—Fix your registration number in mind. (We'll say it is 837.)
- 2.—Remember your district. (Say it is No. 4, Oakland.)
- 3.—Find out the entire number registered in that district. (Look at the last number registered. In the case of District No. 4, Oakland, it is 1853.)
- 4.—Now take the list of draft numbers drawn at Washington yesterday. Start at the beginning and cross off every number above the total registration of your district until you come to your own number. (In the case we are using as an example you would cross off every number above 1853 until you came to 837.)
- 5.—Now count the uncanceled figures until you come to your number. This will give you the order in which you must appear for examination. (In the example we are using you will find that 837 is the thirteenth number. Thus the holder of this number is thirteenth in his district to appear for examination.)

### TO FIND OUT IF YOU ARE INCLUDED IN THE FIRST CALL

Find the quota for your district. (See below.)  
Taking District No. 4, Oakland, as an example, its quota is unofficially and approximately 223.  
Two hundred per cent of the quota of each district must be furnished for the first call. Take two hundred per cent of the quota of your district and it will give you the number of men who must appear for examination first.  
In District No. 4, therefore, two hundred per cent of the quota is 446. Thus this number of men must appear for examination at once.  
Taking number 837, District No. 4, Oakland, you will remember that he was thirteenth in the list of the official drawing, after all numbers above 1853 (the total registration in the district) had been

scratched out. Inasmuch as 446 men must report in this district for examination, he is within that number and is therefore included in the first call.

### HERE ARE THE QUOTAS

With a total military registration of 16,383, Oakland's quota of men to be supplied in the first draft for the new army has been set by the War Department at 1977. Divided among the seven districts of the city, the allotment will be apportioned as follows:

District No. 1—339	District No. 4—223
District No. 2—266	District No. 5—425
District No. 3—230	District No. 6—275
	District No. 7—215

Berkeley's total military registration is 4263. Its quota for the first draft is 503. This means that 1006 men must report for examination at the first call. District No. 1 quota is 215, District No. 2 quota is 288.

Alameda county's total military registration, outside of Oakland and Berkeley, is 5494. Its quota for the first draft is 641. This means that 1282 men must report for examination in response to the first call.

Alameda county, outside of Oakland and Berkeley, is divided into three districts—No. 1, the city of Alameda; No. 2, Piedmont, Emeryville, Albany and Ocean View; No. 3, the remaining territory in the county. The quotas for these three different districts have not yet been received from Sacramento, and until they have been announced, men living in these districts cannot ascertain whether or not they are subject to the first call.

# INDUSTRIAL NEWS

ITEMS OF INTEREST CONCERNING  
the MANUFACTURERS of  
THE EAST BAY DISTRICT.

The Menasse-Block Tanning Company recently shipped large consignments of

Byron-Jackson Iron Works at Carlton and Seventh streets. Berkeley. has taken

The Solano Iron Works, Berkeley, shipped a large order of trolleys to

Two hundred thousand horsepower will be added to the "Pacific Service" system with the development of the newly acquired Pit river hydro-electric project. To develop equivalent power with steam would mean \$200,000,000 of oil per

year which at the present price would represent an oil cost of over \$8,000 annually.

\* \* \*

The California Packing Corporation of Lorenzo will open its cannery this week. Many improvements have been made in the factory besides the erection of four new buildings including ten apartment houses. These apartments will be occupied by employees. James B. O'Brien, superintendent, expects to put on the largest

The Wednesday noon luncheon of the manufacturers' committee was well attended. The committee, as well as a delegation from San Francisco on behalf of the Home Industry League. The speaker for the day was Mr. W. Merrill Mann, terminal agent of the Southern Pacific, who gave an interesting talk on the subject of close attention to the carrier and shipper, and some of the troubles the carriers are up against through lack of close attention to the details of the proper shipping procedure. He said in part:

"The carriers of the country are overburdened with freight is being consigned to them for shipment that they cannot handle. The shipper shall de-

liver with the goods a bill of directions  
stating to whom the freight is consigned,  
list of articles, and other data. The de-  
scription of articles should be in full  
and as shown in tariff classification, and  
trade names and abbreviations of articles  
should be avoided, and shipping instruc-  
tions should be legible and complete in  
every detail.

"With legible shipping instructions and  
articles correctly described according to  
classification description, the freight  
properly marked and packed, the rail-  
roads will undertake to give prompt

service and furnish the customer with correct freight bills; and when this is done shippers will realize the inestimable value it will be to them and their customers—as claims for overcharges, loss and damage, with their attendant annoyances and vexations will be reduced to a very low minimum, and there will be fewer dissatisfied customers."
